### ABOUT ME

I live in Sterling Park with my wife. We have been married for 27 years and have two sons. One is working for a leading bank, and the other is a Senior at University of Virginia.

I consider myself to be an Average Everyday American, not a Democrat nor a Republican. I am proud to be an American, and I strongly believe in our Country, and its Constitution.

We have prospered in this country, and feel that it is time to give back a little of what we have received in such abundance. We want to make sure that our children and their children will have the same opportunities for success and prosperity that we have had.

**Homeland Security** : We should be able to feel safe in our own homes. No one who intends to harm us must be allowed to enter. We must do everything in our power to protect and preserve our nation.

**Youth** : Our youth are our future. We need to stop bankrupting our children's future. Youth and Education needs to be our highest priority.

**Health Care** : We need affordable healthcare where the average everyday American with their doctors take charge of their health. Not one where personal health decisions are made by insurance adjusters or government regulators.

**Taxation** : We pay almost 50% of our income in taxes yet our government wants more. We are told to tighten our belts, yet the government continues to squanders. I know that we are intelligent enough to spend our own money, and do not need the government to spend it for us.

I seek the support of the Average Everyday American who wants a better future for themselves and their children. Americans who want the best for America. Americans who ready to work with me to make sure that our nation will be there for our children.

I do not like the idea of asking for contributions, but must face political reality. I therefore request that you contribute what you can afford to my campaign, and I promise to do my best to further our cause. I ran the most efficient campaign and will continue to do so.
